

Hurricane Harvey

ESF – 10

Unified

Incident Action Plan

(IAP-14)

Operational Period:

Starting: 09/13/2017 @ 0700

Ending: 09/14/2017 @ 0700

7009721

1. Incident Name:	2. Operational Period: (Date/Time)	INCIDENT OBJECTIVES ICS 202 - EPA
Hurricane Harvey – ESF 10 Texas	From: 09/13/2017 @ 0700 To: 09/14/2017 @ 0700	
3. Incident Objective(s):		
<ul style="list-style-type: none"> • Provide for the safety, welfare and security of response personnel. • Maximize the protection of public, health, and safety. • Identify affected drinking water and wastewater systems in each area, evaluate the systems to determine their operational status and facilitate system contact with Federal, State, and Local agencies (provide technical assistance). • Conduct wide area assessment to identify orphaned containers equal to or greater than 5 gallons, potential or actual discharges from vessels and/or facilities, and document the most effective means for recovery or mitigation in accordance with Natural Disaster Operations Workgroup and the approved Unified Command Hurricane Harvey Vessel Mitigation and Removal protocols. • Prioritize, monitor, mitigate and/or recover identified pollution targets. • Assess DHS critical infrastructure and RMP/FRP facilities for damage and immediate/ongoing releases. • Identify secure areas to process and temporarily store for subsequent recycling, disposal, or return to original owner displaced orphan containers, above ground storage tanks and hazardous waste. • Identify and secure staging areas for displaced vessels. • Optimize staffing and physical footprint commensurate to the size and scope of the incident. • Maintain a common operating picture (COP). • Identify and maximize protection of environmentally sensitive areas and threatened species. • Manage a coordinated interagency response effort that reflects the composition of the Unified Command. • Maintain an IMT that can meet the long-term challenges required for incident mitigation. • Inform the public, stakeholders, and the media of response activities. • Adhere to appropriate financial accounting practices. • Establish a strong interagency partnership with public and private organizations to determine ownership and disposition of targets. 		
4. Operational Period Command Emphasis. (Priorities, Key Discussions/Directions):		
<ul style="list-style-type: none"> • "Get them back to normal" • All field activities will be conducted using the NDOW Standard Operating Procedures, the approved Unified Command Hurricane Harvey Vessel Mitigation and Removal Protocol, NDOW tools, and Response Manager. • Agencies will work in coordination under Unified Command • Transition ESF-10 activities back to normal State of Texas operations. 		
5. General Situation Awareness (Safety bullets, Weather, etc...):		
<input checked="" type="checkbox"/> Approved Site Safety Plan Located at: Safety Officers' desk		
6. Prepared By: (PSC)		
Name: Matt Loesel, EPA CWO Pete Gollnick, USCG	Signature:  	(Date/Time) Date: 09/12/17 Time: 1630 Date: 09/12/17 Time: 1847
7. Approved By (Incident Commander(s)):		
Name: Gary Moore, EPA Chris Wiatrek, TCEQ Jimmy Martinez, TGLO CDR Tedd Hutley, US Coast Guard	Signature:    	(Date/Time) Date: 09/12/17 Time: 1818 Date: 09/12/17 Time: 1820 Date: 09/12/17 Time: 1856 Date: 09/12/17 Time: 1925

1. Incident Name	2. Operational Period (Date/Time)	Command Direction ICS 202A-CG
Hurricane Harvey – ESF 10 Texas	From: 09-13-17 @ 0700 To: 09-14-17 @ 0700	
3. Key Decisions and Procedures: (Ref IMH pg 4-1 to 4-2)		
NAME OF INCIDENT: Hurricane Harvey ESF-10 Texas		
OPERATIONAL PERIOD: 24hour operational period		
FUNCTIONS: Safety, Oil Spill & Hazardous Substance Release and Threats, Environmental Protection, drinking water and waste water facility assessment.		
ASSISTING & COOPERATING AGENCIES: EPA, TCEQ, TGLO, USCG, NOAA, CST, USFW, TPWD		
ORGANIZATION: (Consider Shift Work) <ul style="list-style-type: none"> • AGENCY EXECUTIVE(S): FEMA JFO • INCIDENT/UNIFIED COMMAND: EPA is the lead agency for ESF-10 and USCG is Deputy to support state of TX in accordance with NRF. The ESF-10 Unified Command consists of TGLO, TCEQ, EPA, and USCG. • COMMAND STAFF: • PIO – EPA, assistants as necessary • LOFR – EPA, USCG assistant • SOFR – EPA, ASOFR – USCG • NOAA-SSC • Legal Officer – TBD • GENERAL STAFF: • OSC – EPA with each participating UC agency as Deputy • PSC – EPA, with each participating UC agency as Deputy • LSC – EPA, with each participating UC agency as Deputy • FSC – EPA, Deputy USCG (for MA mgnt), DPN 		
FACILITIES: <ul style="list-style-type: none"> • ICP/ALPHA BRANCH LOCATION: 2001 Suntide Rd, Corpus Christi, Texas; • BRAVO BRANCH LOCATION: 13411 Hillard St. Houston, Texas • CHARLIE BRANCH LOCATION: 3100 Hwy 365, Port Arthur, TX • JIC LOCATION: Full FEMA JIC TBD • Airport: Naval Air Station Corpus Christi 		
Delegation of Authority: All Section Chiefs are empowered to staff according to the needs of the response.		
IMT Procedures/Function: The National Response Framework, ESF10 annex, the Area Contingency Plan, and Geographic Response Plans, and TGLO tool kit will be used, as appropriate, in planning operations. All field activities will be conducted using the NDOW Standard Operating Procedures, the approved Unified Command Hurricane Harvey Vessel Mitigation and Removal Protocol, NDOW tools, and Response Manager All responders will use USCG/EPA IMH and job aids as the IMT SOP. All IMT members shall review their section responsibilities.		
UC Functionality: Core hours of the UC will be from 0700 to 1900. UC shall approve all media releases. UC will approve visitation of VIPs to the response sites. The UC members will work with their deputies to ensure someone is accessible 24 hours/day.		

4. Priorities: (Reference IMH pg 4-2 to 4-3)

1. Life - Safety of Public and Responders
2. Drinking Water and Waste Water systems
3. Assessment, prioritization, mitigation, and monitoring of oil and hazardous substance targets throughout impacted area utilizing NDOW protocols
4. Environmental Protection
5. Information management and situational awareness
6. Unified and efficient government support to the state of Texas

5. Limitations and Constraints: (Ref IMH pg 4-3 to 4-4)**MANAGERIAL:**

Working under large FEMA led disaster response organization.

Impacted area crosses 3 COTP zones; Delegation of FOSC authority completed.

Oil response funded under separate MA

POLITICAL ENVIRONMENT:

Media Coverage: There is likely to be high media interest.

Public Confidence/Perception

Potential for Adverse Economic/Environmental/Health and safety Impacts:

There has been a Large Scale Evacuation with numerous displaced citizens

FINANCIAL:

Funding Sources: EPA has been issued an \$10.092 Million ESF10 mission assignment. EPA will manage the cost accounting for these funds.

USCG has been issued a \$20 Million ESF10 mission assignment. USCG will manage the cost accounting for these funds.

LOGISTICAL:

Multiple resource ordering processes may impact operational efficiency.

Lodging availability is scarce.

Personnel must travel long distances to conduct response operations.

Each agency will use their own logistics processes.

OPERATIONAL/SAFETY/ENVIRONMENTAL:

Night operations on an as needed call-out basis.

RESOURCES: Limited Staffing Resources for adequate IMT.

GEOGRAPHY/TERRAIN: Impact of the event is widespread over a large geographic area. Impacts cross 3 Captain of the Port Zones and entire EPA Region.

PHYSICAL ENVIRONMENT: Heat stress must be considered during each and every operation.

Numerous health safety hazards.

6. Prepared by: (Planning Section Chief)
Matthew Loesel/CWO Pete Gollnick

Date/Time
09/12/2017 0800

1. Incident Name	2. Operational Period (Date/Time)	Critical Information Requirements ICS 202B
Hurricane Harvey – ESF 10 Texas	From: 09/13/2017 @ 0700 To: 09/14/2017 @ 0700	
3. Critical Information Requirements(CIRs): (ref IMH pg 4-9 to 4-10, and Chapter 12) (CIRs are a comprehensive list of information requirements that the IC/UC has identified as critical to facilitate timely decision making. These CIRs should be tracked by the Planning Section/Situation Unit, and incorporated into the daily situation reports.)		
<ul style="list-style-type: none"> • Accountability of personnel. • Status of NDOW Targets. • Environmental resources at risk as a result of the incident and response. • Environmental Impact. • Wildlife Impacts. • Social media field observations or trends. • Political interests or concerns and media interests and concerns. • Completion of an Operational Objective. • 75% of MA Ceiling. • Any Interagency issue or disagreement that cannot be solved at the Section Chief level. • Agency Burn Rate 		
IMMEDIATE REPORTING THRESHOLDS: (The following elements of information must be reported immediately to the IC/UC, and the Planning Section/Situation Unit for tracking/dissemination.)		
<ul style="list-style-type: none"> • Fatalities and/or injuries beyond first aid. • Anytime Safety Officer shuts down operations. • Significant change in media interests and concerns. • Significant change in political interests and concerns. • Failure of Incident Specific Critical Resource that impacts operations. • Any new discovery of an active discharge must be immediately reported to the Operations Section Chief and shall be reported to the NRC. • Any changes to planned operations. • Request for VIP visits. • Any ceiling increase of Mission Assignment. 		
4. Prepared by: (Planning Section Chief) Matthew Loesel/CWO Pete Gollnick	Date/Time 09/12/17 0800	Critical Information Requirements ICS 202B (rev 07/2012)

BMP Record Keeper: HARVEY ESF-10

Protocol for BMP-required targets

The ICS 204 form will specify that the target being worked is on the BMP-Required Targets list.

Best Management Practices (BMPs), criteria (attached):

1. Targets within 300 feet of a TGLO identified Priority Protection Area
2. Targets in waterways that are NOT:
 - a. In marinas
 - b. In industrial areas and/or industrial waterways

Documentation:

(Documentation is extremely important for archive in the Administrative Record. This will remain as the only information available to the state and federal government relative to actions taken in the field in the proximity of state identified Priority Protection Areas. Without this record, it will be open to speculation as to why a resource was injured during the removal process.)

- **FOR US EPA TARGETS:** use the "Comments/Notes" section of the "Hazard Evaluation Field Data Sheet"
- **FOR USCG TARGETS:** Use the "Branch Removal Designator" File for record-keeping
- **FOR BOTH:**
 - c. Note that the BMPs were observed, or
 - d. Note that it was impractical to follow the BMPs and the actions taken.

Endangered Species, Critical Habitat:

If the ICS 204 indicates that work is being done in the vicinity of state or federally threatened or endangered species or critical habitat, then

1. Consult "Consultation Recommendations" in the ESA Sec. 7 Consultation form (attached)
2. Contact ESF-10 ICP Planning or Environmental Unit _____

POST-HARVEY POLLUTION RESPONSE
Best Management Practices (BMPs) for the protection of sensitive Ecological & Cultural
Resources
EFS-10 Environmental Unit (EU)

All operations shall be conducted with the overarching philosophy of "do no more harm than good". The following BMPs are provided for the protection of Federal & State protected species and other sensitive resources and reflect the "*Natural Disaster Orphan Container Recovery in Sensitive Coastal Habitats of Texas*" developed by the Natural Disaster Operational Workgroup. This document is meant as a quick reference guide for operations and not as a replacement for more comprehensive DNOW or state documents. NOTE: In areas where threatened or endangered species or critical habitat exists, refer to the "*Environmental Unit Guidance on Threatened/Endangered Species*" and coordinate with the ESF-10 ICP for specific BMPs.

Coordination & Assistance Contacts

Operations (USCG) ESF-10 _____

Operations (USEPA) ESF-10 _____

NOAA SSC/Environmental Unit _____

For all Field Operations

Cultural Resource Protection:

- For any historic, cultural or native American issues please contact your State Historic Preservation Office (SHPO) as listed above or the SF-10 Environmental Unit Leader.
- Native American and historic-era artifacts (e.g. pot shards & arrowheads) must not be collected.
- When activity occurs within 250 meters of a sensitive cultural resource as indicated by EU, a qualified archaeologist or other qualified historic preservation professional must be present to monitor the work.
- Any activities being undertaken at, on, or near any known historic-era structure, site, vessel or other should first be reported to the SHPO representative identified above or contact the EUL for assistance.

Natural Resource Protection:

- Do not disturb wildlife or habitat (including foraging or nesting areas).
- Perform site visits & work from waterway, paved surfaces or existing roadways whenever possible to minimize impacts to sensitive habitats.
- Select vehicles and equipment which are least likely to disturb soils/sediments and keep loading to a minimum to reduce ground pressure (on unpaved surfaces).
- Sensitive, non-ecological sites (i.e. cultural, historical, pipelines, water control structures, etc.) must be avoided unless otherwise authorized. EU will identify sensitive sites in the vicinity of actionable targets, though all field personnel should take care when transiting to and from actionable targets.

POST-HARVEY POLLUTION RESPONSE
Best Management Practices (BMPs) for the protection of sensitive Ecological & Cultural
Resources
EFS-10 Environmental Unit (EU)

-
- Avoid / minimize the release of contaminants from orphaned containers into critical habitat and other aquatic areas. Document (GPS, Photograph, Markings) orphaned containers and report to EU.
 - Removal of orphan pollution containers from sensitive habitats may require specialized operations to minimize impacts. Such operations shall be closely coordinated with EU.

Wildlife Impacts:

- Watch for and avoid collisions with wildlife.
- Remove all personal & response trash or anything that would attract wildlife to work areas.
- Any fish or wildlife injured or killed during response activities, or discovery of these killed or injured resources during response operations, must be reported to the appropriate Wildlife Agency for proper determination and action.
- All oiled wildlife (dead or alive) should be reported immediately to the appropriate Wildlife Agency..
- Report any distressed or dead marine mammals or sea turtles to the stranding networks:

Documentation & Forms

Ref: NDOW "Natural Disaster Orphan Container Recovery in Sensitive Coastal Habitats of Texas"

Intrusive activity (other than an airboat)	<i>Texas Operations Check Sheet for Container Recovery in Sensitive Coastal Habitats</i> (DNOW Attachment E)
Impacts to fish and wildlife	<i>TPWD's Fish Kill and Injured/Oiled Wildlife Form</i> (DNOW Attachment G)
Operations in Sensitive Areas	<i>Documentation of Operations in Sensitive Coastal Habitats</i> (DNOW Attachment F)

For Specific Response Activities

Aerial Operations:

- Avoid hovering or landing aircraft in/near posted bird sites or areas with high bird concentrations.
- No flights below 500 feet over Wildlife Refuges, Management Areas National Parks or 1,000 feet over bird rookeries.
- Removal by helicopter should be considered if the container is located in the middle of an expanse of marsh in which access will result in a high impact to the resource.

POST-HARVEY POLLUTION RESPONSE
Best Management Practices (BMPs) for the protection of sensitive Ecological & Cultural
Resources
EFS-10 Environmental Unit (EU)

Open-water Operations (includes intertidal):

- Do not block major egress points in channels, rivers, passes, and bays during assessment and recovery operations.
- Access over or into areas containing oyster beds should be restricted to shallow draft boats or barges. Care should be taken to avoid prop washing.
- Water channels shall be used for navigation through the marshes. Under no circumstances shall vessels run over the top of or across the marsh grasses. Stopping or landing a vessel on top of the marshes is prohibited.
- All vessel approaches to the marshes shall be limited to grounding the bow of the vessel on the fringe of the marsh, avoiding landing directly on top of the marsh grasses as much as possible.
- Special Use Permits are required for conducting Air Boat operations in National Wildlife Refuges. Contact EU to ensure proper permits have been obtained.
- When operating motor vessels over sea grass, always employ vessels of appropriate size and draft to minimize impact to grasses, roots, and sediments and avoid any unnecessary disturbance.
- If using Air Boats, maintain a distance of 1,000 feet from high bird use areas to minimize disturbance.
- Monitor boom, lines & underwater equipment regularly to prevent fish/wildlife entanglement/entrapment.
- If a sea turtle or marine mammal is observed trapped or entangled in a boom, line, or anchoring systems, open the boom to free the animal and notify the Wildlife Branch & Environmental Unit.
- Watch for and avoid collisions with sea turtles and dolphins.

Land-based Operations (includes river levees, battures and spoil banks):

- Minimize ground-disturbing activities to as small an area as feasible to complete the task.
- Avoid posted/mark or other high bird use areas and minimize activities in critical habitat areas for Endangered Species.

When working on/near sand beaches, do not disturb Piping Plovers or Red Knots (**if they flush, you are too close**). Report any stranded, injured or signs of sea turtle nesting locations to EU, wildlife operation or STSSN.

POST-HARVEY POLLUTION RESPONSE
Best Management Practices (BMPs) for the protection of sensitive Ecological & Cultural
Resources
EFS-10 Environmental Unit (EU)

Marsh Operations - Protect marsh vegetation & associated soils by doing the following:

- Maximize use of open water, dikes, existing roads and trails and stay away from undisturbed marsh.
- Avoid disturbing vegetation, marsh soils, or peat with foot traffic/boats/equipment.
- Access into marshes should be minimized to avoid disturbing the root systems that could lead to shoreline erosion, water quality degradation, and turbidity. Landings should be made outside of marshes or in areas of the least density.
- Vehicles with wide tracks, wide tires, or specially designed and temporary mats should be used to spread out the weight of equipment and reduce compression.
- Do not create unnatural ruts, channels, dikes or drainage routes and do not re-use previously made tracks. Multiple trips through the same area should be avoided. Plan ahead to reduce trips. Ruts will occur regardless of precautions taken, so be prepared to repair them. Air boats can be effective in smoothing ruts.
- Use care around bank and shoreline crossings at canals, natural water bodies and ditches.
- Travel corridors should be as narrow as possible with designed turn around area. Stay within designated access or travel lanes when present.
- Minimize removal of clean sediment, seaweed and natural debris. Replace removed materials, if practical.
- Use low-pressure tire vehicles (e.g. ATVs, Gators) when practical and consult with the EU to minimize impact
- Avoid posted/marked or other high bird use areas and minimize activities in critical habitat areas for Endangered Species.
- Activities that may require removal of forested and shrub or scrub habitat should be minimized.
- Any foot traffic access to the marshes shall avoid oiled grasses and sediments and utilize one-way-in and one-way-out traffic with walking boards in travel lanes and crosswalks on the marsh.
- All foot traffic in oiled marshes will be done on the walking boards, with no direct foot traffic in the marsh. Walking boards should not be placed in un-oiled marsh areas, and no foot traffic or other entry by response personnel or equipment should occur in these un-oiled areas unless approved by the Unified Command.
- If pollution target location is inaccessible or access with heavy equipment would result in unacceptable habitat damage relative to that posed by the pollution threat, then specialized operations may be needed to minimize impacts. Such operations shall be closely coordinated with Environmental Unit.
- Water channels shall be used for navigation through the marshes. Under no circumstances shall vessels run over the top of or across the marsh grasses. Stopping or landing a vessel on top of the marshes is prohibited.
- Equipment should be washed/cleaned after leaving each site to avoid the transfer of invasive species to the next location.

Hurricane Harvey ESF10 NRC Report Monitoring Protocol - USCG

Background

Hurricane Harvey made landfall at 2300 ET, August 25, 2017, as a Category 4 storm near Rockport, Texas. Harvey stalled over southeastern TX. Due to its slow motion and a prolonged period of onshore flow, the impacted areas received more than 50 inches of precipitation which subsequently led to catastrophic flooding.

An ESF-10 Mission Assignment was signed on August 28, 2017. The US Environmental Protection Agency (EPA), Texas Commission on the Environmental Quality (TCEQ), Texas General Land Office (TGLO) and the US Coast Guard (USCG) have entered into Unified Command to begin the evaluation, clean-up and recovery of spills, releases and orphan containers. On September 4th a separate ESF-10 Mission Assignment was issued to the USCG for the assessment and mitigation of oil and hazmat pollution threats on the navigable waters and adjoining shorelines. The USCG Mission Assignment was amended to have a start date of August 28, 2017.

On September 02, 2017, the USCG D8 Commander designated Captain Dailey as the Incident Specific Federal On-Scene Coordinator for the ESF10 pollution response for the state of Texas. As such, the FOSC is responsible for mitigation of environmental issues associated with pollution caused by Hurricane Harvey. It is recognized that reports of pollution related to Hurricane Harvey will be made to the National Response Center and distributed to the appropriate pre-designated FOSCs. In addition, it is recognized that reports of pollution unrelated to Hurricane Harvey will be made to the NRC and distributed to the appropriate pre-designated FOSC.

USCG Sector command centers are staffed 24/7 and receive, monitor and initiate immediate/appropriate actions. The ESF10 ICP is tasked with mitigating pollution as a result of Hurricane Harvey throughout the AORs of Sector Corpus Christi, Sector Houston/Galveston and MSU Port Arthur, each having a pre-designated FOSC. However, the ESF10 ICP does not maintain a 24/7 command center and does not receive NRC reports. It is paramount that the ESF10 ICP and the pre-designated FOSC in Corpus, Houston and Port Arthur maintain regular communication to ensure appropriate action is initiated on all NRC reports, whether hurricane related or not.

The following NRC report monitoring protocol has been established to:

- Ensure all NRC Pollution Reports relevant to USCG jurisdiction are appropriately acted upon and documented
- Ensure close coordination and information sharing between Sector IMD and ESF10 Branch operations to ensure appropriate and timely actions are initiated.

ESF10 NRC Report Monitoring Protocol

- NRC Reports will continue to be received by the Sector Command Centers and District Command Centers.
- Command Centers shall use their normal standard operating procedures and QRCs to make appropriate internal and/or external notifications

- Pollution NRC Reports shall be passed to Sector IMD per normal SOPs and policy
- Sector IMD shall initiate an appropriate pollution investigation and/or response under normal Sector SOPs and policy and initiate appropriate MISLE documentation.
- If/when the Sector IMD personnel discover that the pollution incident may be the result of Hurricane Harvey, Sector IMD personnel should initiate appropriate actions to secure the source in accordance with normal SOPs and policy then notify the ESF10 Branch Director to coordinate an appropriate follow on actions in accordance with ESF10 Unified Command approved plans and direction.
- If Hurricane Harvey related, ESF10 Branch will record the appropriate information in accordance with the NDOW protocol, create the NDOW pollution target in Response Manager Database, and take appropriate response actions in accordance with ESF10 Unified Command approved plans and direction. These actions will be funded by the DPN.
- If it is non-Hurricane related, Sector IMD will initiate/coordinate an appropriate investigation and response per standard USCG operating procedures and policies. These actions will be funded (if needed) by a CPN or FPN opened under the authority of the FOSC.
- Sector IMD and ESF10 Branch Director shall maintain regular communication to ensure NO pollution reports fall through the cracks. At no time should Sector IMD and/or ESF10 Branch assume that the other is taking action on an NRC Pollution Report.

/S/ CDR Hutley
ESF10 Incident Commander
Incident Specific FOSCR

Subject: Harvey ESF-10 US Coast Guard Documentation Guidance

Background: On August 28, 2017 the Federal Emergency Management Agency (FEMA) issued the ESF-10 Mission Assignment to the Environmental Protection Agency (EPA). The US Coast Guard was brought in for technical expertise and identified as a member of the Unified Command. Additionally, the Coast Guard was given a Mission Assignment under the same Emergency Support Function to remove pollution threats from the waterway. Though the EPA is responsible for the big picture of this Emergency Support Function, the Coast Guard has a responsibility under the Mission Assignment to provide documentation to the EPA via Response Manager and provide cost documentation to the National Pollution Funds Center for vessel removal under Mission Assignment 1509-237911.

Field Documentation:

As long as the information being generated in the field is being entered into Response Manager via NDOW, the need for paper ICS-214 forms is still necessary for all removal activity. The ICS-214 forms will be submitted with the Cost Doc package generated out of each Branch in accordance with Hurricane Harvey ESF-10 Environmental Threat Removal Guide. ICS forms should be scanned and emailed to Harveyesf10@uscg.mil.

Required documentation for ESF-10 records:

Response Manager is being utilized to store data submitted by the field for the ESF-10 mission. The data, as submitted, satisfies the Coast Guard document retention requirement from the field. The following information will be collected and maintained at the ESF-10 Incident Command Post.

- Incident Action Plans
- Situation Reports
- Unified Command Plans
- Executive Summaries

Cost Documentation:

Cost documentation for vessel removal will be collected by the Finance Section. Ultimate disposition of the original cost documentation will be at the National Pollution Funds Center (NPFC) in accordance with the agreed upon command direction for tracking vessel removal cost. Prior to sending the cost documentation package to NPFC, Documentation at the ESF-10 ICP will scan each package.

HH2017COM
APPROVED Talking Points
09/12/17

DO: TALK ABOUT YOUR WORK AND WHAT YOU ARE DOING; AVOID NO COMMENT

DON'T: TALK ABOUT OTHERS' WORK OR SPECULATE

- EPA has an organized emergency response program and is supporting FEMA, state, local and tribal partners.
- Safety is EPA's top priority
- EPA responders are fully integrated in a UNIFIED COMMAND with Texas Commission on Environmental Quality and Texas General Land Office, US Coast Guard
- Flood water is contaminated. Contact should be avoided.
- EPA is supporting the response effort in several ways:
 - Drinking water and waste water staff will offer technical assistance as necessary to restore services. Teams will visit or contact facilities if needed.
 - Superfund site managers worked to secure sites before the storm. Teams are continuing to assess site conditions and determine additional actions as necessary.
 - EPA is working with state partners to assist in contacting industrial facilities, determine status and plans to resume operations
 - EPA TAGA vehicle and ASPECT plane have been deployed to monitor developing environmental impacts
- Response teams will continue to evaluate affected areas and determine necessary actions as appropriate

Instructions for Field Personnel:

For Media Inquiries Contact R6HarveyPIO@epa.gov

1. Incident Name:	2. Operational Period: (Date / Time)	“Safety Message”
Hurricane Harvey – ESF 10 Texas	From: 09-13-17 @ 0700 To: 09-14-17 @ 0700	

Major Hazards and Risks:

Driving	Electrical Hazards	Biological Hazards	Slips, Trips, and Falls
Thermal Stresses	Hazardous Materials	Insects	Fire/Explosions
Fatigue	Drowning	Wild & Stray Animals	Structural Integrity

Personal Hygiene – Minimize contact with contamination. Ensure that you wash with soap and clean water if you have any accidental contact. Wash your hands before and after eating and using the toilet.

Mosquitos – The Texas State Insect is the Monarch Butterfly and NOT the mosquitos. Mosquitos carry the West Nile Virus; and you should use insect repellent to keep them away while you work and rest.

DEFENSIVE Driving – Drive defensively and be vigilant at intersections and in heavy traffic. Check for inclement weather when driving out in the field and insure that you inspect your vehicles. Watch for standing water during downpours and slow down to prevent hydroplaning. Make sure you have gas!

Don't Forget To Drink Water! - Please bring plenty of water with you when you go out to the work-sites. When the heat index is around 100 F drink 1 cup of water every 15-20 minutes. During prolonged sweating lasting several hours, drink sports drinks containing balanced electrolytes. Use sunscreen and take a break in the shade.

Signs and symptoms of heat exhaustion – cool, moist skin; heavy sweating; headache; nausea or vomiting, dizziness; light-headedness; weakness, thirst; irritability; elevated body temperature; decreased urine output.

Signs and symptoms of heat Stroke – confusion, slurred speech; loss of consciousness; red hot, dry skin or profuse sweating, very high body temperature, seizures.

Who To Call! Address any Safety concerns to:

- UC - David Eppler 214-733-4676.
- Alpha Branch - Edward Primeau, 609-351-7148.
- Bravo Branch – Justin Sawyer, 904-755-4860; George Brozowski 214-755-1530.
- Charlie Branch – Scott Binko, 216-903-6277, Greg Halter 910-616-4782.

Boating Safety – Complete the Float Plan. Observe boating safety requirements and enforce PFD wear for all occupants of vessels and during shoreline/dock ops. Ensure the boat trailer is road worthy and complete all vessel checks before leaving the boat launch/marina. Expect safety brief from the boat captain prior to launch and follow their instructions.

When Thunder Roars, Go Indoors. Take shelter when you hear thunder or when lightning is reported within five miles of the work site. Stay sheltered for at least 30 minutes after the last sound of thunder.

Weapons - Local individuals are armed and have showed their weapons to responders. Avoid confrontation!

“TEYSHAS” – Friends or Allies

BE SAFE – BE EFFECTIVE – BE POSITIVE

Get Texas back to normal!

7. Work Assignments:					
ODA 1 – Monitor salvage operations of SIGNET ENTERPRISE at Aransas Pass, and assess pollution reports as notified. Team 1 – MST1 Goggans, CWO Reardon					
ODA 2 - Monitor salvage operations at SANDY POINT and SABINE PASS, and assess pollution reports as notified. Team 1 – MST1 Clark, ENS Ham, 1 TGLO, 1 USCG SERT					
ALL TEAMS - Conduct hazard evaluation and damage assessment, collect information on ALL damaged and sunken vessels, and populate the NDOW response software. Conduct Oil Discharge assessments. Prioritize and conduct assessments of targets. Utilize the NDOW SOP and document targets utilizing Response Manager via a Laptop/PDA/Hazard Evaluation Field Data Sheet. All teams must download/sync assessment information daily and complete a 214B to document team field activities.					
8. Special Instructions:					
Complete all equipment checks prior to departure. Drive defensively. When the heat index is around 100 F drink 1 cup of water every 15-20 minutes. Generally, fluid intake should not exceed 6 cups per hour. During prolonged sweating lasting several hours, drink sports drinks containing balanced electrolytes. Signs and symptoms of heat exhaustion – cool, moist skin; heavy sweating; headache; nausea or vomiting, dizziness; light-headedness; weakness, thirst; irritability; elevated body temperature; decreased urine output. Call 911 or the local law enforcement for animal control issues and if you find any weapons. Address any Safety concerns to Edward Primeau, 609-351-7148. Critical Information Reporting (CIR) All teams shall immediately report any active discharge and/or release to the National Response Center, 1-800-832-8224, and Operations Branch Chief. SITREP: Contact SITL prior to 1200 and 1600 at 361-236-2510

7. Work Assignments:					
Conduct emergency orphan container recovery. Utilize the NDOW Orphan Container Hazard Evaluation SOP and document recovered targets utilizing response manager via a laptop/IPAD/Hazard Evaluation Field Data Sheet. All teams must download/sync assessment information daily and complete a 214B to document team field activities.					
OCR Team 5-7: Water- based recovery operations at designated targets in Houston Ship Channel and turning basin. OCR 9 will be support boat.					
Report to River Terrace Park Launch Road in Channelview at 0700.					
OCR Team 8-12: Water- based recovery operations at designated targets in Galveston Bay and IVO Galveston and Bolivar. OCR 12-14 will be support boats. Report to Offatts Bayou Boat Ramp at 0700 (1600 61st St, Galveston, TX 77551) and drop off targets at Seabrook Boat Ramp (TX-146, Seabrook, TX 77586). Decon Team: Decon operations at Channelview Launch Point.					
8. Special Instructions:					
Drive defensively and be vigilant at intersections and in heavy traffic. Have CST vehicles follow stakebed trucks and crews, using flashers/cones to increase visibility when stopped alongside the road for field operations. Observe boating safety and enforce PFD wear for all occupants of vessels and during shoreline/dock ops. Confirm solid footing in debris/vegetation with oars before exiting vessels. Hydrate regularly, replenish electrolytes and calories often, take breaks, and get adequate rest. Reapply sunscreen and insect repellent at least once per day. Check air monitoring instrument functionality and don required PPE PRIOR to first contact with any orphan container. Use teamwork and lifts to prevent injuries/spills. Maintain eye contact with operators of haul trucks and heavy equipment. Continue periodic communication with supervisors. Impacted wildlife needs to be documented on the NDOW Fish Kill and Injured Wildlife Form and submitted to the Group Supervisor. For animal control issues call 911 or the local police dispatch - DO NOT approach any animal or wildlife. If teams find weapons or ammunition, call 911 or local law enforcement. Critical Information Reporting (CIR): All teams shall immediately report injuries or accidents to Safety Officer - George Brozowski, EPA – 214-755-1530. Report any active discharge or HAZMAT release to the OPS Branch Chief. For on-water emergencies, contact USCG Command Center – 281-464-4855/Channel 16.

<p>Continue collection and staging of recovered orphan containers at the pad located at 6000 Airline Dr. in Beaumont. To receive, process, categorize, bulk, and dispose of any and all found hazardous containers. Collect samples from containers and conduct field screening. For personnel working at the Hazardous Materials Staging Pads, the Staging Group Supervisor must make certain that daily personnel training address the care, use and/or testing of all PPE used at the site, the medical surveillance program, the standard operating procedures for the hazardous materials team including the use of plugging and patching equipment and other subject areas, and any sampling and/or monitoring equipment used at the sites. Information must be posted at the site regarding where and how to obtain additional assistance if required. All personnel should be familiar with the local areas emergency response capabilities. The Site should be adequately secured and monitored to prevent access by unauthorized personnel.</p>					
8. Special Instructions:					
<p>All Health and Safety incidents need to be reported to the Safety Officer for investigation. Keep hydrated with drinking 1 cup of water every 15-20 minutes. Take breaks as needed in a shaded area. Ensure you wear the appropriate PPE for your task (i.e. hard hats, gloves, safety glasses, safety boots, and PFDs). Use sunscreen and insect repellent. Ensure air monitoring instruments are operational and used during assessments. Impacted wildlife needs to be documented on the NDOW Fish Kill and Injured Wildlife Form and submitted to the Group Supervisor. For animal control issues or when a weapon is found, call 911 or local law enforcement. Maintain teamwork - use the buddy system! If you see a lightning strike within 5 miles, shelter for at least 30 minutes after hearing last thunder roll. SOFR – SCOTT BINKO, CG – 216-903-6277.</p> <p>Critical Information Reporting (CIR) All teams shall immediately report injuries, mishaps to SOFR, and report any active discharge and/or release to the Operations Branch Chief.</p>
